EXPERIENCE

SDE Intern

Sept 2023 - Feb 2024

AUMYAA CONSULTING SERVICES LLP

Remote

- Developed Dynamic Offer Letter Generation: Designed and implemented a feature within a MERN stack application that automated the creation of personalized offer letters, streamlining the hiring process and reducing turnaround time for employment offers.
- Implemented Advanced Data Analysis with Pandas: Integrated data analysis capabilities in a Flask-based backend using Pandas, enabling the extraction of meaningful insights from large datasets and enhancing data-driven decision-making.

PROJECTS

Testimonials

(Try it here)

- Testimonials is an application designed to help users and companies gather testimonials on their products and services. This platform allows users to submit feedback and companies to manage and view the collected testimonials effectively.
- Tech Stack: Next.js,TypeScript,MongoDb, Zod, NextAuth, Tailwind CSS,ShadCn

Smart Forms

(Try it here)

- SmartForms is a powerful tool for creating customizable and editable forms with ease using the Gemini API. It offers extensive styling options and allows users to share forms to collect responses. A dedicated dashboard helps manage forms, view responses, and download them for further use.
- Tech Stack :React.js, Next.js, PostgreSQL, Drizzle ORM, Clerk, JavaScript, Tailwind CSS, Gemini API.

PicsaGram

(Try it here)

- PicsaGram is a dynamic social media web application that facilitates secure photo sharing, profile updates, and photo exploration in a user-friendly environment with authentication (Google and credentials-based registration)
- Tech Stack: ReactJs,TypeScript,Firebase, Tailwind CSS,ShadCn

LEADERSHIP

- Agnito 2024 Core Member
- Core Member E-cell IIITS
- Design Sub-lead (Enigmatics Society)
